UFH Mounting Tools

Romania - Purmo

- Easy Installation
- Safe Operation
- Versatile Application
- Complete Integration
- Professional Quality

Description

UFH Mounting Tools are designed to provide robust support and secure attachment for underfloor heating and cooling systems. Compatible with the UFH-MASTER and Heating & Cooling modules, these tools help integrate various electrical and hydraulic components, including circulation pumps and actuators. Designed for residential, office, and industrial applications, UFH Mounting Tools ensure that all setup and operational requirements are thoroughly met, facilitating a smooth and safe installation process.

Area of Application

UFH Mounting Tools are suitable for residential rooms, office spaces, and industrial facilities. The tools are ideal for managing underfloor heating and cooling systems, including actuators and thermostats. Designed to work with UFH-MASTER and Heating & Cooling modules, they integrate electrical and hydraulic components like circulation pumps and actuators.

Selection Criteria

Use the UFH Mounting Tools selection guide for your specific underfloor heating setup, or refer to our design service for a tailored solution. For quick selection, use our brochure.

Basic User Instructions

Before starting, disconnect the power supply. Install and wire all components such as sensors, actuators, and thermostats correctly as per the provided wiring diagrams. Only qualified personnel should connect and commission the system. Ensure that the installation complies with all safety standards. The mounting tools should be used in dry places only. Do not interchange the connections of any sensors, actuators, or power supplies as this may cause serious electrical hazards or damage to the system.

Prescription text specifiers

UFH Mounting Tools are essential for the installation and management of underfloor heating systems. Designed for use in residential, office, and industrial environments, these tools assist in the secure attachment and integration of vital components such as actuators and thermostats. UFH Mounting Tools are compatible with UFH-MASTER and Heating & Cooling modules and ensure all electrical and hydraulic connections are safely and efficiently managed. Follow all relevant safety regulations and installation guidelines for optimal performance. Disconnect power supply before installation and use only qualified personnel for wiring and setup.

Warranty

Purmo radiators are warranted for a period of 10 years* from date of purchase against all manufacturing defects when they are used in normal conditions and for a heating system with hot water. The warranty does not apply to defects caused by installation or handling errors, misuse or factors external to the radiators, such as water quality or oxygen-permeable pipes.

Underfloor heating products and piping systems elements are warranted for a period of 10 years**.

* 6 years for galvanized radiators and 2 years for all electronic and electric components and spare parts sold separately (side covers, top grilles, plastic clips, plugs, air vents, fixing parts)

** 30 years for PexPenta pipes

Specification

Feature	Unit	Value
Etim Class		EC010381 - Accessories/spare parts for floor heating
Depth	Millimetre (mm)	100, 150, 310
Weight	Kilogram (kg)	0.8, 1, 2.4
Height	Millimetre (mm)	1000, 200, 310
Width / Length	Millimetre (mm)	100, 510, 80
Type of accessory/spare part		Other
Accessory		Yes
Spare part		Yes
