Premier HE

Myson Premier HE, stylish round top radiator in imperial sizes

Data sheet
2026-11-17

- Stylish, hazard-reducing round top
- Impressive heat outputs
- Suitable for low temperature systems
- Numerous sizes available (see also Premier Metric)
- Imperial sizes for retrofitting

Myson **Premier HE** is famous for its round top which not only provides extra safety, but also gives the Premier HE radiator its unique style and good looks. As the only UK panel radiator range offering imperial fitting dimensions, Myson's Premier HE is the perfect panel radiator for retro fitting projects. The Myson Premier Metric offers the same great looks high performance, but in metric sizes.

Area of application
Premier HE is suitable for 2-pipe pumped indirect domestic and commercial heating applications. Designed for retrofit projects, it features a stylish round top and impressive heat outputs. Available in various sizes, it is perfect for traditional and modern room designs.

Sizing
For selecting or calculating thermal heat power output, please use our design service. For quick selection, use our brochure.

Usage
Premier HE radiators are designed for use on 2-pipe pumped indirect heating systems with a maximum working temperature of 100°C. Each radiator is tested to 7 bar pressure and is suitable for a working pressure of 5.4 bar. Installation should ensure proper alignment with ½" BSP connections and incorporate air vents as needed. Ensure the system is clean and free from debris before and after installation.

AMA Text
The Myson Premier HE panel radiator is a versatile option for 2-pipe pumped indirect domestic and commercial heating applications. Tested to BS EN 442 standards and marked with BS Kitemark, CE, and UKCA, it guarantees quality and safety. Available in 121 sizes, it supports a maximum operating temperature of 100°C and pressures up to 5.4 bar. Premier HE features a unique round top design, ensuring both style and safety, while providing impressive heat outputs. Ideal for retrofitting, it comes with a 10-year warranty and fits traditional or modern room designs with ease. Install with appropriate air vents and ensure system cleanliness for optimal performance.

Specifications

PROPERTIES	UNIT	VALUES
ETIM Class		EC011022
Material		Steel
Type		11, 21, 22
Surface structure		Profiled
Max working pressure	bar	5.4
Number of standard connections		2,4
Heat output according to recognized EN 442 laboratory		Yes
Max. Operating Temperature	°C	100
Standard color		Yes
Color		White
RAL number		9016
Grill/Cover plate		Yes
Grill/Cover plate		Yes
Gloss value		Glossy
Thread dimension (inch)		1/2 inch
Thread connection		Internal thread
With single-point connection		Yes
With air vent connection		Yes
With air valve/vent		Yes
With drain option		Yes
